Portfolio

Product manager, 4+ years building **data-heavy** grants and field-data software end to end, from stakeholder requirements to shipped features. I lead two products, write specs engineers build from directly, and own what gets built. I read the code, the data models, and the security layer.

EXPERIENCE

Dhwani Rural Information Systems

Gurugram, India · Jul 2022 – Present

Product Manager

Apr 2025 – Present

- Lead **mGrant** and **mForm** end to end, two data-heavy products. mGrant governs **₹5,000 Cr+** in grants across **40+ donors** and **1,500+ NGOs**; mForm serves **30+ organisations** and **1 Lakh+ offline field users**, engineered for low-connectivity sync (HUL, Adani, Reliance Foundation).
- Led **100+ features and enhancements** from requirement design through delivery across **70+ client / tenant setups**.
- Established the **Builder Protocol**: a three-role AI-assisted delivery model (Product Builder, System Architect, Account Manager) with Claude Code agent and plugin setups per role, replacing a six-specialist SDLC; rolled out across **5+ clients** (three currently live).
- As **Data Privacy Officer**, own security and compliance documentation for mGrant and mForm; run security gap analysis (ISO 27001) and quarterly compliance check-ins across **20+ clients**, including MNC organisations.

Associate Product Manager

Aug 2023 – Apr 2025

- Served as **Product Owner**, led **50+ sprints** under a senior CDO, turning ambiguous requirements into build-ready scope and clear acceptance criteria.
- Built the product's data-to-decision layer used by both donor and grantee (NGO) teams; translated compliance rules (Section 135, FCRA) into product behavior.
- Owned delivery metrics: **QA automation 0 → 112 UI cases**, regression coverage **~10x (175 → 1,900+)** at flat headcount, **80–96% backlog burn**, and **500+ QA defects cleared** while shifting capacity to feature delivery.

Analyst

Jul 2022 – Aug 2023

- Designed forms and built **Power BI dashboards on a reporting data warehouse** for **healthcare and ultra-poor-program** clients, with hands-on data analysis and early program design.

180 Degrees Consulting, Global Leadership Team

Remote · Jun 2022 – Present

IT & Digital Lead

prev. Senior Specialist · Data & Insights Specialist

- Lead a six-person IT & digital team on 180DC's **100+ member Global Leadership Team**, supporting **200+ student branches** and **5,000+ members** across APAC, EMEA, and AMER.
- Own the digital backbone: Power BI KPI dashboards, Monday.com ticketing, Zapier API integrations and automation, Webflow sites, and Google Groups admin, plus technical compliance across branches.

Government of Punjab

Rupnagar, India · Sep 2021 – Jun 2022

Project Lead

- Built a basic **election logging system** and a district **e-Governance management system**.
- Led a 20+ intern cohort across district programmes (NRLM livelihoods, menstrual hygiene, abortion safety) with end-to-end monitoring and evaluation.

SKILLS

Product	Requirements & specs · Stakeholder discovery · Edge-case analysis · Acceptance criteria · Roadmapping
Technical	Read & review: Python, JavaScript, SQL · Data-model design · Data security · Frappe / ERPNext
Tools	Jira · Linear · Notion · Miro · GitHub · Power BI · Looker Studio · Tableau · Superset · server monitoring
AI	Claude Code · MCP · Agent & plugin design · AI-assisted delivery

EDUCATION

B.Com (Hons), Sri Venkateswara College, DU · 8.9 CGPA2022

Commerce base, self-taught into product & engineering

Navy Children School, CBSE, Commerce2019

96.5% · Goa State Topper, AISSCE

CERTIFICATIONS & HONORS

Claude Partner Network, Anthropic Academy2026

Agent Skills · Claude APIs · MCP · Claude Code in Action

Introduction to Data Science, Coding Blocks2021

Self-Taught Programmer, Udemy2020

Goa State Topper · All-Rounder of the Year
